### What CMU Alumni have to say...

"I had an absolutely outstanding time at CMU, I felt I definitely got all the support and tools I needed to be successful in the industry, and had loads of job opportunities from the job board."

"After graduating university and deciding makeup was my true passion I attended CMU. My CMU experience was incredible because it provided so many hands on experiences. I also worked with teachers who were still presently working in the industry and they truly motivated me. I continually visit the school for inspiration and every time I go I'm reminded of how amazing my experience was."
